

PREVENT 2

Water-repellent
anti-stain product

HOW IT WORKS

- It gives water-repellent protection against rising damp and surface water-and-oil repellence.
- Particularly suitable for outdoor treatments in a single application.

WHERE TO USE

It is used on all types of medium-high absorption stones .

WHY TO CHOOSE IT

1. Does not alter the colour of the material
2. Facilitates periodic maintenance
3. Can also be applied on uniformly damp surfaces

CONSUMPTION: 12 sqm with 1 L

DILUTION: it is used pure
